

## **Public Participation    Get Involved!**

**You are invited to a Public Workshop!**  
**Thursday, August 24, 2006 from 6:00    7:30 p.m.**  
**at the Chester Memorial Hall on Gay Street**

A series of public workshops, Local Transportation Commission (LTC), and County Board of Supervisor (BOS) presentations are planned for the Almanor Regional Transportation Assessment (ARTA). The purpose of these workshops is to provide the public with the opportunity to discuss the future needs for the Almanor Basin.

Some of the topics that will be addressed at the workshops are purpose and need, study participants, study area and facilities, work plan and schedule, analysis methodology, existing conditions, future conditions, and improvement alternatives. In addition to the topics listed above, we encourage the public to ask questions and share their thoughts.

The first public workshop was held on Wednesday, August 3, 2005 at the Chester Memorial Hall (Gay Street). Thank you to all who attended! Future meeting and presentation dates will be posted as they become available.

If you would like to receive e-mail notification for the public workshops, please contact me at [amber\\_kelley@dot.ca.gov](mailto:amber_kelley@dot.ca.gov).
